

## Informative Questionnaire

I would like to know a little about each of you, and your reasons for being in Math 811AB. In order for me to expedite the process, I would like to have each of you give me some general information about yourself. I will not let anyone else see this information, so please do not feel that you need to be worried about your privacy. This information will better help me to tailor the class to meet the needs represented.

Name: \_\_\_\_\_

\_\_\_\_\_

Please give me a phone number where I can always either get in contact with you personally or where I can leave a message on a machine. I would like to know that when I return calls or try to get in contact with you, with concerns, that I will be able to do so reliably. You may think that when you leave a message you can always give me a number then, but things happen, and I like to have a number written down that I know will work in a pinch. This is not a substitute for leaving your number on my voice mail when you do call, it is strictly for back up purposes, so always leave your number when leaving me a message! Yes, the school does give me your home phone numbers, but they aren't always current, and they aren't always the best place to reach you!
